

Workday Sees Continued Momentum in Higher Education, With More than 70% of Workday Higher Education Customers Live

Iowa State University, Santa Clara University, University of Florida, and More Are Leveraging Workday to Elevate Student Experiences and Adapt to Changing Industry Needs

PLEASANTON, Calif., Sept. 19, 2023 /PRNewswire/ -- [Workday, Inc.](#) (NASDAQ: WDAY), a leader in enterprise cloud applications for [finance](#) and [human resources](#), today announced continued momentum in [higher education](#). Leading higher education institutions including DePauw University, Medical College of Wisconsin, University of Florida, and more recently selected [Workday Financial Management](#), [Workday Human Capital Management \(HCM\)](#), or [Workday Student](#) to help improve enrollment and revenue planning, and deliver engaging student experiences.

As part of this momentum, more than 70% of Workday higher education customers – including recent go-lives from Guilford College and Ivy Tech Community College – are live on Workday. They join more than 400 higher education institutions realizing the benefits of a unified, cloud-based system for financial, HR, and student data.

"We needed to ensure we are adequately budgeting, planning, reporting, recruiting, and adjusting based on evolving enrollment numbers and department needs," said Kristen Constant, vice president and chief information officer, Iowa State University. "With Workday, we are simplifying and automating workflows by eliminating paper and manual processes, helping us deliver engaging experiences for our more than 25,000 students and nearly 10,000 faculty and staff."

A More Streamlined, Elevated Student Experience

Amid ongoing enrollment disruptions and fluctuating budgets, higher education institutions must operate more efficiently and adapt quickly to shifting realities – all while elevating the student experience. To keep pace, higher education institutions including Rhode Island School of Design, Santa Clara University, and more recently went live with Workday Student.

Designed to work seamlessly with Workday Financial Management, Workday HCM, [Workday Adaptive Planning](#), and [Workday Grants Management](#), Workday Student is an end-to-end student lifecycle information system that provides students with a unified experience to manage academics, employment, finances, payroll, time tracking, and more all via a mobile application.

"The mobile capabilities within Workday Student help us deliver a more simple and engaging experience for our students," said Kaz Joseph, director of enterprise applications, Santa Clara University. "Students can now perform critical tasks such as registering for classes, accepting financial aid, connecting with advisors, searching for and applying to on-campus jobs, and getting paid all in one place – whenever and from wherever."

A New Approach to Technology Collaboration

According to Workday's [global CxO Indicator survey](#) of senior leaders, only 9% of higher education leaders say their IT and finance functions are on the same page. To address this gap, the Collaborative for Higher Education Shared Services (CHESS) is replacing individual institutions' outdated administrative functions with Workday to help deliver cost savings, system upgrades, and partnerships between [six public colleges](#). As a result, these institutions can manage finances, payroll, staff and administration, and student services with one cloud-based system.

"Workday addresses the evolving challenges facing higher education institutions by uniquely connecting their finance, HR, student, and planning data for a unified experience – as evident by our growing list of new and live customers," said Michael Hofherr, general manager, higher education, Workday. "We are committed to supporting our higher education customers on their transformation journeys with continued innovation and strategic partnerships that help drive student and operational success."

Forward-Looking Statements

This press release contains forward-looking statements including, among other things, statements regarding Workday's plans, beliefs, and expectations. These forward-looking statements are based only on currently available information and our current beliefs, expectations, and assumptions. Because forward-looking statements relate to the future, they are subject to inherent risks, uncertainties, assumptions, and changes in circumstances that are difficult to predict and many of which are outside of our control. If the risks materialize, assumptions prove incorrect, or we experience unexpected changes in circumstances, actual results could differ materially from the results implied by these forward-looking statements, and therefore you should not rely on any forward-looking statements. Risks include, but are not limited to, risks described in our filings with the Securities and Exchange Commission ("SEC"), including our Form 10-Q for the fiscal quarter ended July 31, 2023, and other reports that we have and will file with the SEC from time to time, which could cause actual results to vary from expectations. Workday assumes no obligation to, and does not currently intend to, update any such forward-looking statements after the date of this release.

Any unreleased services, features, or functions referenced in this document, our website, or other press releases or public statements that are not currently available are subject to change at Workday's discretion and may not be delivered as planned or at all. Customers who purchase Workday services should make their purchase decisions based upon services, features, and functions that are currently available.
